Note: For distribution shares switched between the ex-distribution date and the payment date, any dividend entitlement will be switched to the designated fund upon settlement of the subscription unless otherwise indicated.

Commissions

Any commission generated by initial sales charges, prepaid commission, or switching fees is calculated on a deal basis and paid twice a month. Trail commission and retrocession fees are accrued on a daily basis and normally paid quarterly in arrears.

The calculation methodology is:

$(\text{Number of shares} \times \text{NAV}) \times (\text{agreed annual rate of commission}/365) = \text{daily commission accrual}$

Note: 365 is replaced by 366 for a leap year

Front end commission amounts less than \$100, or equivalent, will be carried forward to the next front end commission period and will be paid if the balance is greater than \$100.

Trail commission amounts less than \$100, or equivalent, will be carried forward to the next trail commission period and will be paid if the balance is greater than \$100.
